

Rosenhagen Nov. 23/90

Dearest Lissie,

I was getting very hopeful of you when your last letter came to hand.

I am very glad, since your health has proved so frail, that you are coming home. We wanted you all the time.

I have a great deal on hand to write, but must defer. My eyes tho' much improved are still very bad.

Virginia often asks ought I not to go and help Lissie to pack up? If she ought don't hesitate to say so. as she will surely come if you think it best.

You must be very careful of yourself. I know that it is hard to be, still you must

Is there any one who can come  
to you in the place? Can your  
donkey boy?

It seems to us that the place  
last mentioned is a good  
opening for Mr. S. But I must  
not dwell on it to day (Sabbath)

Dr Howards father is dead. He  
died over a month since. He  
made the Dr. promise to go &  
stay with his (the Drs) mother & so  
the poor man is giving up his practice  
here, at a sacrifice, & he has gone.  
V. told him about Goa & that you  
was coming home, and that you  
would need his help. He said  
he would be back in two weeks, (That  
was last Thursday morning) &  
there had been any chance to  
reach you. I would have sent  
a postal, at the bank, on  
Friday morning.

Do you know the Doctor's address?  
If you do you might write to

Saturday

Yours received -

We feel dreadfully about you -  
That is - mother does - Will be glad  
to see you - Don't forget to tell me what  
to do about insurance - If you had  
to have me on business I could stay  
one night - Mother is better. If  
you are sick be sure to have me  
come - The Prudential Ass'n has no  
Charter in New Jersey - It does  
not make the payments agreed  
on - The Harveys paid \$17 - all  
they got for picking Cranberries -  
Vineyard Journal says there is a rumor  
that Maj. Walker died recently. We  
think it would be nice to have you  
choose your own presents for us when  
you come - What shall we give  
aunt M. and the girls - Instead of  
making Mr. Luce a present we are  
trying to make up his salary by Christmas  
and get a present when he goes away -  
They are \$20 behind to date.  
Mother is so sorry to think you have  
such a terrible time with your eyes

And ~~those~~ <sup>those</sup> ~~eyes~~ <sup>eyes</sup> Would call Peter beyond  
on the soul. Of course it would not  
do for eyes - Would chloralium?

Attended to all puzzle work all right  
Made out checks for Monday's mail  
Wrote Anne Beebe a short letter apparently  
at your dictation - Told her of your  
eyes and that V. was writing for you -  
Much love - Rec'd another month's  
rent from Mr. Jan Warming
